

NEW PRO-LINE HT 高溫記號筆

(高溫範圍 982°C-1204°C)

PRO-LINE HT

HIGH TEMPERATURE PERFORMANCE WITH PrismaLock™

PrismaLock™ 具有高溫性能

The PRO-LINE® HT is a unique liquid paint marker engineered with industry-leading PrismaLock™ technology, which locks in colors for bright, bold marks that can withstand temperatures of up to 1800°F (982°C). By using specialty pigments and resins, this fast-drying paint offers unparalleled durability and mark readability, with some colors retaining easily legible marks up to 2200°F (1204°C).

Surfaces: 表面

- Metals 金屬
- Glass 玻璃
- Ceramics 陶瓷

Used in following industries: 適用於以下行業

- Heat treating 熱處理
- Annealing 退火
- Metal production 金屬生產
- Welding & Metal Fabrication 焊接和金屬加工
- Glass production 玻璃生產

最大標記可讀性 (無顏色):

Maximum mark readability (no color):

- White: 2100°F (1148°C) 白色: 2100°F (1148°C)
- Yellow: 2100°F (1148°C) 黃色: 2100°F (1148°C)
- Black: 2200°F (1204°C) 黑色: 2200°F (1204°C)
- Blue: 2000°F (1093°C) 藍色: 2000°F (1093°C)

- 97301
- 97302
- 97303
- 97305

Fast-drying, liquid paint marker for high temperature

resistance

The PRO-LINE® HT Difference

performance @ 1800°F (982°C)*

性能@1800°F (982°C)(不同廠牌比較)

For the most durable marks and long-lasting colors, the PRO-LINE® HT difference is clear compared to other "High Temperature" markers. This unique marker is engineered with industry-leading PrismaLock™ technology, which locks in colors for bright, bold marks that can with-stand temperatures of up to 1800°F (982°C). When your job is on the line, use the only marker that can stand the heat.
