

特殊按鈕自鎖鉤(有把手)

Hooks™

保證安全效益之先進的設計(附把手)

Technically advanced design with proven safety benefits, sets the new standard in safety hooks.

Key Benefits and Safety Features

- ▶ Unique integral safety handle, eliminating pinch and trap injuries
- ▶ Protected dual sided locking slide, eliminates external lock protrusions
- ▶ Unique internal load bearing profile, for quick and easy load or discharge

新安全標準及
荷重能力和型號 **Hooks™**

The New Standard for Safety

CE Certified and DNV type approved.

Hook

We make the Hook

Traditional Hook

You make the Choice

Hooks™ are the cost effective solution to eliminating serious, and potentially costly, pinch and trap hand injuries during lifting operations. A revolutionary new design, Hooks, incorporate unique safety features that eliminate the inherent hazards of traditional hooks and set a new global safety standard for a broad range of industries and applications including:

Hooks Multi Leg Chain Assemblies

- ▶ Construction
- ▶ Mining
- ▶ Mobile Cranes
- ▶ Tower Cranes

Hooks Wire Rope Pennants

- ▶ Offshore Platforms
- ▶ Mobile Drilling Rigs
- ▶ Shipping
- ▶ Port Services

Hooks™ - Model Range and Codes

WWL (x 1000kg)	4 tonne	6 tonne	8 tonne	10 tonne	12 tonne	16 tonne	20 □ tonne
Swivel Top	NH-SL4S	NH-SL6S	NH-SL8S	NH-SL10S	NH-SL12S	NH-SL16S	NH-SL20S
Clevis Top	NH-SL4C	NH-SL6C	NH-SL8C	NH-SL10C	NH-SL12C	NH-SL16C	NH-SL20C
Eye Top	NH-SL4E	NH-SL6E	NH-SL8E	NH-SL10E	NH-SL12E	NH-SL16E	NH-SL20E

- ▶ Hooks™ are manufactured to EU standard BS/EN 1677-1+A1/2008
- ▶ Comply with DNV standard for certification 2.22 lifting Appliances 2008.
- ▶ Individually proof tested to 2.5 x Working Load Limit prior to shipment.
