

Heavy Duty Counterbalance Mobile Cranes....

重型配重行走吊車-步行吊車

...King - the monarch of pedestrian cranes

帝王-步行吊車的君王

We Limited has created the King range of heavy duty counterbalance mobile cranes with the operator specifically in mind. The King pedestrian power driven crane can pick up and position heavy items of work and machinery and place them with precision, giving the operator full control.

我們限制生產重型配重行走的帝王吊車範圍 並附有專業的操作者，本帝王步行動力驅動吊車能吊起和定位重型工作物及機器並可精密的放置它給予操作者完全的控制

Like the Bulldog truck, the King Crane has been designed and manufactured for greater manoeuvrability in the tightest of spaces. The crane is fitted with a powered lift mechanism as well as a hydraulic hand pump which enables the operator to position the load with precision.

就像勇猛貨卡一樣，帝王吊車設計和製造作為在緊密空間可作較大的機動能力，本吊車配有動力吊升機構和油壓手動泵，此用來使操作者精確的定位荷重物

The King Crane has a lifting capacity ranging from 500kg up to 1000kg and comes with a heavy duty battery, built in charger and battery state/hour meter as standard. Again the safety of the operator is top priority with our designers and all cranes are tested to a 50 % overload and conform to BS 13000:2004 standards.

帝王吊車吊升能力範圍從500公斤到1,000kg，附有重型電池，內裝有充電器及電池狀態／時數錶為標準配備而且操作者的安全是最優先，我們公司設計者和所有吊車均作了超過負載50%的測試，符合BS 13000：2004標準

Model	型號	PDCB500	PDCB750	PDCB1000
L2 – Chassis Length	L2底盤長度	1400	1400	1700
Capacity	能力	500, 375, 250Kg	750, 540, 410Kg	1000, 750, 610Kg
Reach	達到範圍	657, 1000, 1318mm	657, 1000, 1318mm	657, 1000, 1318mm
Lift Height	吊高	2310mm	2310mm	2310mm

With over 40 years' experience, We are not only gives its clients a range of materials handling products to suit all operations, it also offers a highly recommended bespoke design service. Using the latest 3D AutoCAD system, our design team can help you create the handling truck that will best suit your needs.

超過40年的經驗，我們不但給予客戶一個材料處理產品的範圍來適合所有的操作，而且提供一種高度建議訂製設計服務，使用最新3D AUTOCAD系統，我們的設計團隊能幫您創造處理最適合您所需的貨卡車

Pedestrian Manual Lift Counterbalance Cranes

步行手動吊升配重吊車

Light to medium duty pedestrian propelled Workshop Cranes are available in capacities of 150kg, 250kg and 350kg.

是一種輕型到中型步行前進工廠吊車，能力有150KG，250KG和350KG

Compact and easy to operate, these units have large nylon wheels and castors to aid manoeuvrability. Braked rear castors have wheel guards to prevent the operators from trapping their feet.

結實和容易操作，這些型號有大的耐隆輪和旋轉輪來增加機動性，後輪制車及輪蓋，可防止操作者的腳夾入輪子內

The cranes have hydraulically hand pumped lift units.

本吊車有油壓手動泵單元

Heavy duty stainless steel hook complete with safety catch.

重型不銹鋼鉤頭附有防滑舌片

No extra counterweight required – supplied ready to use.

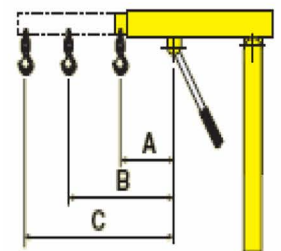

勿需額外的配重-提供了買了就可使用

As with all our products, user safety is a top priority and all counterbalance mobile cranes are tested to a 50% overload and conform to BS 13000:2004 standards.

凡所有我們產品,使用者安全是最優先的，所有配重式行走吊車超過50%的過載測試，並符合BS 13000：2004標準

Your safety is assured with our pedestrian counterbalance trucks.

使用我們步行配重貨卡車可確信您的安全

Capacity	能力	150kg			250kg			350kg		
Hook position	鉤頭位置	A	B	C	A	B	C	A	B	C
Jib loading	懸臂荷重	150kg	120kg	100kg	250kg	200kg	150kg	350kg	280kg	235kg
